

AMP PRO SL

AMP SL Pistol Conversion Kit with Slingshot Arm Brace

LOCATE DISTRIBUTOR

Product Description

AMP is our latest generation of handgun conversion systems. This new modular design features three replaceable adapters. Changing and mixing between the different adapters enables the user to adjust the AMP to different handgun models. The AMP SL configuration features the Slingshot Handgun Brace, enabling true one-handed operation without the need for a support hand or shouldering. To use it, simply lower the brace onto your forearm and it automatically wraps securely around it, providing a broad, stable support surface. The Pro version includes our upper aluminum rail, backup sights and the KPOS backpack.

Product Advantages

- Slingshot arm brace enables true one-handed operation using the dominant hand only
- FGG Safe 45° folding grip locks at 45° and folds backward to function as an extendable trigger guard
- 8.6" upper aluminum rail
- Quick and easy installation requires no tools or handgun modification
- Easy adjustment for different handguns (adapters sold separately)
- M²LOK® handguard supports a wide range of accessories
- Bungee sling & SLS, included
- RBS & FBS Backup Sights, included
- Special backpack with room for a full AMP-PRO kit with extra magazines and personal equipment
- Aggressive look and pricing
- Available in 3 different colors: Black, OD Green, FDE
