

FCH

[LOCATE DISTRIBUTOR](#)

Product Description

The FCH is a Cocking Handle for Glock models which allows comfortable and tactical cocking function. Ideal for single handed operation.

Product Advantages

- Enables single-handed cocking of Glock handguns Useful when one hand is injured or occupied e.g. enables driver to cock weapon while keeping one hand on the wheel Most common object can provide counter pressure for charging a Glock with the cocking handle: belt, pants waist, vest, railing, table, chair
Cocking handle base replaces slide cover plate Quick attachment & removal of handle to/from plate while base remains mounted
Switches quickly to adapt to left-handed or right handed shooters
Durable steel construction Ideal in emergency situations
