

MOJO

LOCATE DISTRIBUTOR

Product Description

The MOJO transforms the standard AR Magwell into a comfortable and ergonomic foregrip with a flared and extended magazine well that enhances reload speed, while adding an ornamental aspect to the civilian firearm. The MOJO has a system of easily replaceable grips, the Tactical grip can be used while performing drills on the range, and then quickly replaced with a styled mask grip, according to personal preferences.

Product Advantages

- Extended magazine well to enhance reload speed, Tactical Grip provides ergonomic grip with a thumb groove Replaceable grip area – comes standard with the Tactical Grip and one decorative Mask grip Durable and lightweight fiberglass reinforced polymer

construction Quick and easy installation, no gunsmith required

Compatibility

- M16 5.56x45 lower receiver variants, without a flared magazine well. May not work well with the PMAG GEN3
