

NFR

LOCATE DISTRIBUTOR

Product Description

NFR is a superior aluminum quad rail system which provides a significant carbine length upgrade to M4 handguard, enhancing weapon's overall tactical performance, ventilation and versatility.

Product Advantages

- Four 1913 MIL-STD Picatinny rails for versatile mounting solutions
- Rail system firmly locks to the barrel nut
- Perfect alignment with the receiver, secured with anti-rotation locking tabs
- Precision machined from 6061 T6 billet aluminum for maximum durability
- Rugged construction, Field tested under extreme conditions for maximum performance
- 4 quick detach sling swivel sockets for secure & versatile slinging options
- Matte black hard coat anodized for optimal wear resistance
- Quick and easy installation, no Gunsmith required

Compatibility

- M16/M4 models and variants with a barrel length of 14" or longer carbine-length gas systems & without a gas block.
