

NFR-EX

Extended Aluminum Quad Rail System

[LOCATE DISTRIBUTOR](#)

Product Description

NFR EX Aluminum Quad Rail System provides an extended M4 handguard upgrade enhancing overall tactical performance, ventilation and versatility.

Product Advantages

- Four 1913 MIL-STD Picatinny rails for versatile mounting solutions
- Extends over the fixed front sight & provides additional rail space
- Rail system firmly locks to the barrel nut and over the front handguard cap
- Perfect alignment with the receiver, secured with anti-rotation locking tabs
- Precision machined from 6061 T6 billet aluminum for maximum durability
- Rugged construction, Field tested under extreme conditions for maximum performance
- 7 quick detach sling swivel sockets for secure & versatile slinging options
- Matte black hard coat anodized for optimal wear resistance
- Quick and easy installation, no Gunsmith required

Compatibility

- M16/M4 models and variants with a barrel length of 14" or longer carbine-length gas systems & without a gas block.
