

UAS-SVD

LOCATE DISTRIBUTOR

Product Description

The UAS SVD is a combined buttstock system and ergonomic pistol grip made for improved trigger operation, ergonomics, accuracy and overall performance of the Dragunov Sniper Rifle (Snayperskaya Vintovka Dragunova).

Product Advantages

- Slim and low profile, side folding design with built-in cheek rest
- Push-button side folding mechanism and spring based locking in folded position for secure and efficient operation
- Durable and lightweight fiberglass reinforced polymer and aluminum construction
- Rubber butt pad enhances stability and reduces recoil
- Adjustable cheek rest with 5 height options

- Provides clearance for trigger when in folded position
- Improved maneuverability, target acquisition, on target time and muzzle control
- Right-folding mechanism by default, can be preordered in left-folding configuration
- Quick and easy installation with two screws (provided) no Gunsmith required
- Non-slip finger grooves and backstrap shape improves trigger operation
- Integral storage compartment for batteries or cleaning kit in the grip
- Quick-Detach sling swivel sockets on both sides
- Available in black, olive drab green or flat dark earth

Compatibility

- Dragunov Sniper Rifle (Snayperskaya Vintovka Dragunova).
